

USHA MITTAL INSTITUTE OF TECHNOLOGY SNDT Women's University, Mumbai

The Training & Placement Cell of the Institute was established in the academic year 2000-2001 with the aim of getting various national and multinational companies to the campus. In order to achieve these objective students are trained for aptitude tests, group discussions, personal interviews and technical interviews with industry participation.

Regular Industry Interaction Forums with the goal of orienting students with career prospects in their chosen field and also to bridge the gap between academic aspirations and industry expectations are organized where leading IT companies give valuable insights into their company profiles and discuss career opportunities for fresh engineers.
